khalid qotb

Frontend Developer | HTML, CSS, JavaScript, React.js
Cairo, Egypt

Summary

Junior Front-End Developer | Passionate About Interactive Web Experiences

I am a junior front-end developer focused on creating smooth, user-friendly web interfaces. With a solid foundation in HTML, CSS, and JavaScript, and improving skills in React, I aim to build responsive and visually engaging websites. My first language is Arabic, and I have a good command of English.

My Skills Include:

- Front-End Development: Strong foundation in HTML, CSS, and JavaScript, and progressing with React
- Tools & Technologies: Skilled in Visual Studio Code, GitHub, and Firebase for deployment
- Additional Skills: passion for learning

Bring a creative background in terms of 3D design and story writing, I aim to create engaging web experiences.

Let's connect and explore how we can create exceptional digital experiences together!
